

## APIIT Law School Gears Up to Host Teams Worldwide at ALSINC 2023!

With anticipation in the air and an undercurrent of excitement, APIIT Law School is making arrangements to welcome over 20 teams from around the world for the third edition of the APIIT Law School International Negotiation Competition (ALSINC) – a signature project that provides an opportunity for university students to build their knowledge and skills in different forms of negotiation.

Hailing from diverse corners of the globe, including the UK, Singapore, Nigeria, Kenya, India, and Sri Lanka, these teams are preparing to engage in a series of negotiation rounds, to clinch the Winning Negotiator Team Title at the ALSINC 2023. This year's edition, set to take place from the **30<sup>th</sup> of August 2023** to **3<sup>rd</sup> of September 2023** marks a turning point in the competition's history, transitioning from its exclusively online format in past editions to a hybrid model.

The ALSINC journey is not confined to solely a competition; it is an enriching experience that promises to bring like-minded individuals together and stimulate creative thinking. As the Opening Ceremony draws near, ALSINC 2023 prepares to be a platform for negotiation, cultural exchange, and student-driven initiatives.

A brainchild of APIIT Law School's Moot, Debate, and Mock Mediation Society (MDMMS), ALSINC is a symbol of the power of student-driven initiatives. Organized entirely by students, for students, this competition serves as a testament to APIIT's commitment to nurture holistic legal education. The event not only provides a platform for young legal minds to showcase their negotiation skills but also underscores APIIT's role in developing meaningful academic pursuits beyond the classroom.

ALSINC stands as a testament to APIIT's commitment to giving its students great opportunities to hone their existing skills as well as develop new skills and be a part of activities that provide them with invaluable experiences; experiences that prepare them for rapid career advancement even as they study for their degrees.
